

Modulbezeichnung	WING-Master Modul 10 Wahlpflicht District Heating Systems	
Verwendbarkeit	Masterstudiengang Wirtschaftsingenieurwesen	
Lernziele / Kompetenzen	<p>Students ...</p> <ul style="list-style-type: none"> - know the concept of district heating systems. - learn about the potential for urban waste heat recovery in EU27. - identify why awareness is important (of the possibility to recover urban waste heat) and how it can be done. - analyse technical solutions for waste heat reuse in European cities. - analyse transformation strategies for district heating systems. 	
Lehrinhalte	<ul style="list-style-type: none"> - Introduction of district heating - The role of urban waste heat recovery in district heating and the mapping of waste heat potential - The stakeholder and value chain of the urban waste heat recovery, its bankability and the business models - The ReUseHeat demonstrator in Madrid involving heat recovery from service sector (hospital), the technical characteristics of the recovery system and the lessons learnt - The experiences, challenges and lessons learnt from the ReUseHeat project case on heat recovery from underground transport infrastructure - The ReUseHeat demonstrator involving waste heat recovery from a datacenter in Braunschweig, the technical characteristics of the recovery system and the lessons learnt - REWARDHeat Serious game: Smart networks integrating renewable and waste energy source 	
Lehr- und Lernformen	Seminaristischer Unterricht, Unternehmensplanspiel	
Modulsprache	Englisch	
Voraussetzungen	Formal: keine Inhaltlich: Grundlagen der Energieversorgung	
Prüfungsleistung	Hausarbeit (12 - 15 Seiten)	
Kreditpunkte	3	
Arbeits- aufwand	Präsenzzeiten	30
	Selbststudium	60
Schwerpunkte im Selbststudium	<ul style="list-style-type: none"> - Vor- und Nachbereitung der Vorlesungsinhalte - Literaturstudium - Schreiben einer Hausarbeit 	
Angebot des Moduls	Sommersemester	
Modulverantwortliche/r	Prof. Dr. Holler	
Lehrende/r	Prof. Dr. Holler, Dr. Romanov, Dr. Lygnerud (Halmstad University, Sweden)
